

MONITORING, EVALUATION & LEARNING (MEL)

for impact-oriented decision making and planning

Who we are

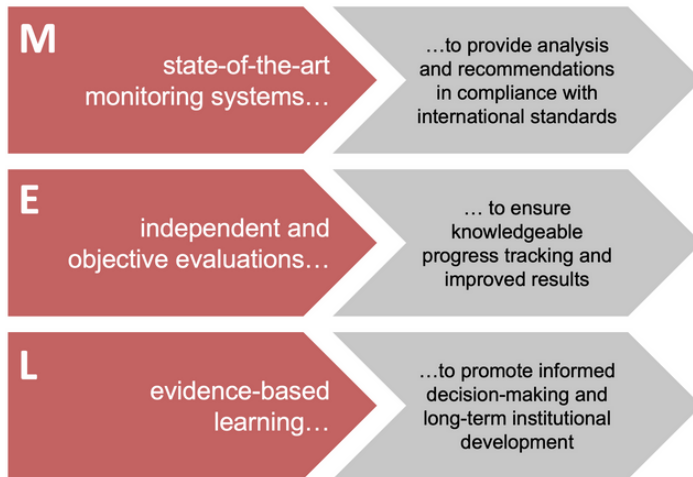

As an independent consultancy based in Germany's United Nations' City Bonn, we contribute to improving the impact of international cooperation projects through Monitoring, Evaluation and Learning (MEL). Our international and local experts together with our experienced project

managers support your organisation to ensure high quality results in accordance with international standards. Our aim is to support institutional learning based on reliable data so that impact-oriented decision-making and planning can take place.
